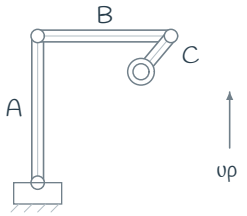
SKY OBSERVATIONS

Date _____ Time _____

Location _____

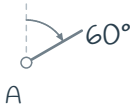
I've been practicing a few moves with my makeshift Canadarm. It is really impressive what Canada has contributed to space exploration!



This is the start position.

First try

A little turn to the right.



Second try

I brought A back halfway through that last turn. Then I moved B:

Last try

A made a quarter-turn to the left. B went back to the right, half as far as its previous turn.
